EDUCATION

University of Michigan, Ann Arbor

Expected Graduation: December 2025

Bachelor of Science in Computer Science

Major GPA: 3.8

- **Relevant Coursework:** Data Structures and Algorithms, Web Systems, Computer Security, User Interface Development, Human-Centered Software, Computer Organization, Discrete Mathematics, Probability & Statistics

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL/SQLite, C/C++, Java, HTML, CSS

Frameworks/Tools: React, Next.js, Flask, Node.js, Firebase, Vue, Tailwind, AWS, Docker, Git, Postman, Figma

EXPERIENCE

Lead Software Developer

Present

Yes, No, Fingers – in partnership with the University of Michigan LRC

Ann Arbor, MI

- Prototyping and developing a multilingual medical terminology web app with dynamic search, TTS audio playback, and responsive UI for LEP (Limited English Proficiency) communities.
- Leading integration of GPT-based assistance and translation verification workflows in collaboration with cross-campus volunteers and academic partners.

Software Engineering Fellow

Jul 2024 – Sep 2024

Headstarter

Remote

- Developed and deployed five AI-driven applications within a 10-week timeframe using React, JavaScript, and Firebase, boosting engagement for a user base of over **200**.
- Led a team of three in building a SaaS platform with dynamic flashcards, integrating the **Stripe API** for subscriptions, improving user retention and monetization.

PROJECTS

AI Invoice Processor | *Next.js, JavaScript, SQL, CSS, AWS, Google Gemini 2.0 LLM*

- Developed an AI-driven invoice processing system that automates data extraction, validation, and approval workflows, reducing manual processing time by **80%**.

Healthcare Translation App | *React.js, JavaScript, Flask, Python, CSS, Google Gemini 1.5 LLM*

- Created a healthcare translation tool using **natural language processing** to deliver **context-aware translations** for medical terminology.
- Implemented a real-time interface supporting **multiple languages**, improving accessibility and patient communication in diverse healthcare settings.

Instagram Clone | *React, JavaScript, Flask, Python, SQL, CSS, AWS*

- Architected a client-side web application using JavaScript and AJAX, enabling infinite scrolling and real-time updates without full page reloads.
- Developed a **RESTful API** using Python's Flask framework to improve data flow, boosting application performance and scalability.

Elite Tennis Academy Website | *HTML, CSS, JavaScript*

- Launched a responsive website that improved user experience, leading to a **50% increase** in online enrollment and generating over **\$15,000** in revenue.

LEADERSHIP EXPERIENCE

Technology Lead - Cyber Threat Competition Finalist

Feb 2023

Deloitte Risk & Financial Advisory

Dallas, TX

- Led a team of 3 to a **top 10% placement** out of **1,500+ participants** by presenting a detailed cyber incident response strategy, demonstrating effective leadership and collaboration.
